PROFESSIONAL SUMMARY

Final-year System Informatics, Networking, and Application (SIJA) student at SMK Negeri 1 Cibinong. I have a solid foundation in Web Development, with hands-on experience building projects using PHP (Laravel), MySQL, and React.js. Beyond development, I am an active CTF (Capture The Flag) player who has participated in various cybersecurity competitions. I am a highly collaborative team player, eager to learn new technologies, and dedicated to contributing effectively within a professional development environment.

EDUCATION

Vocational High School SMKN 1 Cibinong | 2023 – Present

- Major: System Information, Network, and Application (SIJA).

TECHNICAL SKILLS

- Programming & Web: PHP (Laravel), JavaScript(Next.js), HTML, CSS, React.js.
- Database & Tools: MySQL, DevOps (Docker).
- Networking & Security: Basic Networking (Mikrotik), Cybersecurity (CTF Player)

SOFT SKILLS:

- Leadership, Public Speaking, Problem Solving, Teamwork, Critical Thinking, Technical Documentation

EXPERIENCE

NEVTIK Informatics Organization | Vice Chair | 2023 – 2026

- Lead organizational coordination, manage internal activities, and facilitate technical development for members.
- Facilitated technical development programs and delivered public speaking presentations for technical sharing sessions.
- Collaborated with the team to ensure all technical sharing sessions ran smoothly and reached all members.

IDN Mengajar | Network Engineer Training | Oct 23 - 28, 2023

- Implemented basic networking protocols during intensive hands-on engineering simulations.

Basic Cyber Security Training – Kominfo | Oct 21 – 22, 2024

- Analyzed cybersecurity fundamentals and executed threat mitigation strategies in a controlled environment.

Industrial Class Program – SESPLUS | May 2025 – Aug 2025

- Engaged in intensive software development training and professional industry workflows.

Red Hat Academy | Infrastructure & Automation Trainee | Aug 2024 – Mar 2026

- Practiced enterprise system solutions including Linux Administration, Python programming, Ansible automation, and OpenShift container orchestration.

HONORS & ACHIEVEMENTS

- 2nd Place – NETCOMP 4.0 Cybersecurity (CTF) Competition 2026 (Universitas Gadjah Mada)
- 3rd Place – CyberWave 1.0 Cybersecurity (CTF) Competition 2026 (JKT-CODERS)
- 1st Place – iTechnoCup Cybersecurity (CTF) 2025 (Politeknik Negeri Jakarta)
- 1st Place – Astro 7.0 Cybersecurity (CTF) Competition 2025 (STT Terpadu Nurul Fikri)
